CAA001_
Some time ago, we sent you an invitation letter, which also included a data protection statement. Have you received the statement?
1. Yes
5. No

IF CAA001_ = 5

CAA002_
In this case, I will then summarise the most important points of the statement for you. Furthermore, I will be pleased to answer any question regarding the protection of your data that you may have now.

The [FILL in name of CTL institution] in cooperation with SHARE-ERIC are responsible for the implementation of the survey. We, [FILL in name of Survey Agency], are commissioned to carry out the interviews.

The purpose of the study is to provide scientists with data on health, socio-economic status and social and family networks to address their research questions in relation to the process of population ageing.

Participating in this interview is voluntary and the information is kept confidential. We will not record the conversation. During the interview, I will enter your answers in a computer. They will be stored together with a code number only. I.e., your contact details and names are strictly stored separately from the information provided by you during the interview.

Your contact details and names will be stored until the end of the SHARE study’s last wave of data collection only. After the collection of the individual interviews, they will be compiled and later on be used only for research purposes in different analyses, without the individual researcher knowing your identity. The results of the analyses will be presented in an anonymised form only.

If we should come to any question you don’t want to answer, just let me know and I will go on to the next question. Non-participation will not lead to any disadvantages for you. You can also withdraw consent at any time with effect for the future. Furthermore, you have several other data protection rights. In the next step, I will tell you how you can receive more information about your rights.

Do you agree to participate in this study?
IWER: Answer all questions of R.
1. Yes, R consented to participate.
2. No, R refused to participate. No interview possible.

IF CAA002_ = 1

CAA003_
Thank you. For further information, you can contact us by calling [FILL in telephone number of survey agency]. Furthermore, we can send the data protection statement to you again. Do you want us to send you the statement once more?
IWER: Provide R sufficient time to note the telephone number.
1. Yes, R wants the data protection statement to be sent again
2. No, R has received information to R’s satisfaction

  If you have questions regarding the data protection statement, I will be pleased to answer them. Let me stress that participating in this interview is voluntary and that the information is kept confidential. We will not record the conversation. Instead, during the interview, I will enter your answers in a computer. Your answers will be used only for research purposes in different analyses, without the individual researcher knowing your identity. If we should come to any question you don’t want to answer, just let me know and I will go on to the next question.
  Do you agree to participate in this study?
