### IntroPage

The CoverScreen Wizard will guide you through the steps needed to update the information we have about a household.

Please read the question text aloud to the respondent.

Text in bold starting with 'IWER:' gives you extra information to clarify the question. It can also provide hints in case you do not understand the meaning of a question.

Press the 'Next' button to start the wizard.

IWER: Is this interview held in a private household or in a nursing home?

A nursing home provides all of the following services for its residents: dispensing of medication, available 24-hour personal assistance and supervision (not necessarily a nurse), and room & meals.

1. Private household

2. Nursing home

During our previous interview we asked about the household. To shorten our interview today, I would like to refer to previous answers instead of asking everything again. Would that be ok?

1 Yes

2 No

### CoverscreenWizardIntroPage

In ^FL\_MONTH ^FL\_YEAR, your household has participated in a study called 50+ in Europe. As you know, this study is interested in learning about important aspects of people's lives such as their health, financial and family situations. To do so, we are re-interviewing people such as yourself who participated in the study last time.

We are particularly interested to learn how people fare who move to a nursing home.

This interview is voluntary and confidential. If we should come to any question you don't want to answer, just let me know and I will go on to the next question. The answers that you give will be kept confidential and will be used only for research purposes.

Before beginning the interview, I need to ask a few questions about each household member, like name, sex, and date of birth. Let's start with you.

Please note

Before you continue, verify with the respondent that the other household members (^FL\_MEMBERS) live or once lived in this household.

If none of these persons have lived here, you have probably selected a wrong household. In that case you should not continue.
